

Advancing Legal Medical Marijuana Therapeutics and Research

Sign Up for Instant DEA Raid Alerts!

Join ASA's Emergency Response Text Messaging System

With the numerous recent attacks on dispensaries by the DEA, we need to be prepared for immediate action to support medical cannabis providers. ASA has designed a system that will alert its members of regional emergency DEA actions as soon as they happen. The goal of the Raid Emergency Response Text Messaging System is to immediately notify and organize grassroots response to help stall federal raids on patients and providers.

Sign-up for ASA's Raid Emergency Response Text Messaging System to learn of DEA raids immediately! This service is only for regional emergency alerts, primarily for raids, and ASA will not bombard folks with text messages.
