

CANNABIS CARE CERTIFICATION

- a project of Americans for Safe Access Foundation and TheAnswerPage

Dear Healthcare Professional,

As your patient, I look to you to direct me towards treatments and therapies that will be of benefit, and away from those that may cause harm. Your expert opinion is incredibly important to me.

However, it is my understanding most healthcare professionals are not provided with formal education on the endocannabinoid system, medical marijuana and cannabinoid-based medicines.

That is why I am asking you to please consider taking the fully accredited:

[“CCC Comprehensive Medical Marijuana Course”](#)

use code CCC2020 for \$50 discount

The CCC Comprehensive Medical Marijuana Course accredited course (ACCME, ACPE, AANP, ANCC, APA, AGD) is provided by TheAnswerPage.com, a recognized leader for providing comprehensive education on the endocannabinoid system and medical cannabis, pain medicine, and opioid prescribing practices.

Simply go to TheAnswerPage.com and use code **CCC2020** and receive a \$50 discount to the CCC Comprehensive Medical Marijuana Course and [state-specific and approved medical marijuana courses](#) AND 12-months of continuous access to the endocannabinoid and medical marijuana course content library.

Most importantly, whether or not you have any intention of recommending cannabis for medical use, completing this course will be most relevant for your clinical practice. An increasing population of your patients will be using medical cannabis and you will need to know how cannabis affects their health and interacts with their medical regimes. Your patients will be relying on you to provide guidance and expert opinion on the endocannabinoid system, and the risks and benefits of medical cannabis.

[Enroll in the CCC Course today! \(use code CCC2020 for \\$50 discount\)](#)
